RESEARCH INTERESTS

My research interests lie primarily in the broad areas of *artificial intelligence* and (*algorithmic*) *data science*, with the main goal of tackling (novel) problems and designing effective yet efficient algorithms that are useful to gain knowledge from data. Due to the fact that much of today's data can be represented as graphs, my emphasis has primarily been on formalizing data-driven challenges as graph problems. More specifically, my recent research interests include graph mining, correlation clustering, deep learning on graphs and (combinatorial) multi-armed bandit problems.

RESEARCH EXPERIENCES

Postdoctoral Researcher

University of Calabria, DIMES department

May 2021 - present

Rende, Italy

- Designed, implemented and tested a combinatorial multi-armed bandit solution for the problem of correlation clustering with uncertain weights
- Studied the problem of correlation clustering with global weight bounds with application to fair clustering
- Explored the effectiveness of graph neural networks for the problem of discovering polarized communities in signed networks

Research & Teaching Assistant

University of Calabria, DIMES department

October 2017 - May 2021

Rende, Italy

- Investigated problems and evaluated algorithms in the context of community detection in complex networks
- Designed, implemented and tested novel solutions for the problem of consensus community detection in both multilayer and temporal networks
- Studied the problem of optimizing interactions in probabilistic graphs under clustering constraints
- Explored the effectiveness of combinatorial multi-armed bandit algorithms for online clustering and consensus community detection problems
- Investigated the preference learning paradigm for the problem of trust network inference in online social networks

Research Fellow

University of Calabria, DIMES department

April 2018 - June 2018

Rende, Italy

- Studied the problem of building privacy-preserving synopses of multidimensional data
- Developed and tested a system prototype which constructs histogram-based synopses of multidimensional data to support approximate query answering with theoretical guarantees on the privacy of the summarized data

EDUCATION

Ph.D. in Information and Communication Technologies

University of Calabria

October 2017 - May 2021

Rende, Italy

- Thesis: "Mining and Learning Problems in Complex Graph Data"
- Supervised by prof. Sergio Greco and prof. Andrea Tagarelli

M.Sc. in Computer Science & Engineering (*with honors*)

University of Calabria

October 2014 - September 2017

Rende, Italy

- Thesis: "Ensemble-based Community Detection in Multilayer Networks"
- Supervised by prof. Andrea Tagarelli

B.Sc. in Computer Science & Engineering (*with honors*)

University of Calabria

October 2011 - September 2014

Rende, Italy

- Thesis: "Implementation of Outlier Detection Algorithms in Weka"
- Supervised by prof. Fabio Fassetti

SCIENTIFIC COMMUNITY SERVICE

Program Committee

- ACM SIGKDD International Conference on Knowledge Discovery & Data Mining (KDD) (Research track) [2023]
- ACM The Web Conference (WWW) (Social Network Analysis and Graph Algorithms track) [2022, 2023]
- ACM International Conference on Web Search and Data Mining (WSDM) [2023]
- AAAI Conference on Artificial Intelligence (AAAI) [2023]

- › *European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (ECML-PKDD) (Applied Data Science track)* [2021, 2022]
- › *European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (ECML-PKDD) (Research track)* [2022, 2023]
- › *International Symposium on Methodologies for Intelligent Systems (ISMIS)* [2022]
- › *Workshop on Mining Data for financial applications (MIDAS)*, in conjunction with the *European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (ECML-PKDD)* [2021, 2022]

Conference Reviewing (The list does not include reviews done as Program Committee member)

- › *ACM SIGKDD International Conference on Knowledge Discovery & Data Mining (KDD)* [2019, 2020, 2021, 2022]
- › *ACM The Web Conference (WWW)* [2019, 2020]
- › *IEEE International Conference on Data Mining (ICDM)* [2018, 2020, 2021]
- › *SIAM International Conference on Data Mining (SDM)* [2018]
- › *European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (ECML-PKDD)* [2018, 2019]

Journal Reviewing

- › *IEEE Transactions on Knowledge and Data Engineering (TKDE)*
- › *Social Network Analysis and Mining (SNAM)*

Scientific Boards

- › Member of the Editorial Board of Data Mining and Management as Review Editor for Frontiers in Big Data

TALKS & POSTERS

Conference Speaker

- › *Learning to Active Learn by Gradient Variation Based on Instance Importance*, International Conference on Pattern Recognition (ICPR '22), Montréal, Québec, August 2022
- › *Correlation Clustering: from Local to Global Constraints*, Italian Symposium on Advanced Database Systems (SEBD '22), Tirenna (Pisa), Italy, June 2022
- › *Correlation Clustering with Global Weight Bounds*, European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (ECML-PKDD 2021), Virtual Event, September 2021
- › *In and Out: Optimizing Overall Interaction in Probabilistic Graphs under Clustering Constraints*, ACM SIGKDD Conference on Knowledge Discovery and Data Mining (KDD 2020), Virtual Event, August 2020
- › *A Combinatorial Multi-Armed Bandit Based Method for Dynamic Consensus Community Detection in Temporal Networks*, International Conference on Discovery Science (DS 2019), Split, Croatia, October 2019
- › *Dynamic consensus community detection and combinatorial multi-armed bandit*, IEEE/ACM Int. Conference on Advances in Social Networks Analysis and Mining (ASONAM 2019), Vancouver, Canada, August 2019

EXTERNALLY-FUNDED RESEARCH PROJECTS

Participation as a research-staff member

- › *D-All: sfruttare la potenza dei big data per effettuare analisi predittiva in applicazioni innovative di cross-market*, Funding entity: Italian PON 2018-2020, CUP: B48I17000820008.

TEACHING

Teaching Assistant

University of Calabria

Rende, Italy

- › *Algorithms and Data Structures (Course A)*, B.Sc. in Computer Science & Engineering, 18 hours/year. '21-'22, '22-'23
- › *Algorithms and Data Structures (Course B)*, B.Sc. in Computer Science & Engineering, 18 hours/year. '21-'22
- › *Algorithms and Data Structures*, B.Sc. in Computer Science & Engineering, 18 hours/year. '17-'18, '18-'19, '20-'21
- › *Database systems*, M.Sc. in Management Engineering, 15 hours/year. '18-'19, '19-'20

SKILLS

General-Purpose Programming Languages: Python, Java, C

Domain-Specific Languages: SQL (relational DB querying), Bash (shell scripting), LaTeX (typesetting)

Versioning Technology: Git

Interacting Computing Technology: Jupyter Notebook

Software Libraries: numpy, scikit-learn, PyTorch, PyTorch Geometric, pandas, seaborn, NetworkX, igraph

Operating Systems: macOS, Windows, Unix/Linux

Language Skills: (Native) Italian, (Fluent) English, (Basic) French
